## What is this product?

**Type** UCITS fund

**Term** The fund has no maturity date. The fund company has the right to close the fund and redeem the units, see information in the prospectus.

**Objectives** The fund is an actively managed equities fund that invests in stable companies, investment companies, and dividend yield assets in order to generate a stable, positive return over time. The investments break down into ca. 85% in equities and ca. 15% in dividend yield assets. The management approach is explicitly long-term, resulting in low transaction costs. The fund is completely independent of index weightings. The fund's assets shall be invested in transferable securities, money market instruments, fund units, and credit institution accounts. At least 50% of the fund's assets shall, however, be invested in Swedish markets. The fund's overall objective is, first and foremost, to create a stable, positive return and, secondly, to outperform the Stockholm Stock Exchange's SIXPRX index. The fund may, in order to enhance the efficiency of its management, invest in derivative instruments, including OTC derivatives. The fund does not pay any dividends.

**Intended Investor** This fund may be suitable for those who plan to hold their investment for at least 5 years and who understand that the money invested in the fund may increase or decrease in value and that there is no guarantee that you will get back all the capital invested. To invest in the fund, you do not need to have any particular prior knowledge or experience of funds or financial markets.

Depository: Swedbank AB (publ). The annual reports, semi-annual reports, prospectus, the latest prices of units, and other practical information may be obtained free of charge in Swedish, from [www.spiltanfonder.se](http://www.spiltanfonder.se).

## What are the risks and what could I get in return?

### Risk Indicator

The risk indicator assumes that you keep the product for 5 years.

The summary risk indicator provides an indication of the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets. We have classified this product as 4 out of 7, which is a medium risk class. An example explanation: This rates the potential losses from future performance at a medium level, and poor market conditions could impact the fund management company's capacity to pay you.

### Risks not captured by the risk indicator:

Counterparty risk arises if a counterparty does not fulfill its obligations to the fund, for example by not paying a set amount or not delivering securities as agreed.

Operational risk is the risk of loss due to, for example, system failure, errors caused by the human factor or by external events.

This product does not include any protection from future market performance. You could, therefore, lose all or part of your investment.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumption. Markets could develop very differently in the future. Performance scenarios are shown for 1 year and the recommended holding period. The unfavourable scenario occurred for an investment between 2021.12-2024.12. The moderate scenario occurred for an investment between 2019.05-2024.05. The favourable scenario occurred for an investment between 2016.12-2021.12. The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## What happens if Spiltan Fonder AB is unable to pay out?

The fund's assets may not, by law, be held with the fund management company. The law requires, instead, that every fund has a separate company, a depositary, that holds the fund's assets. If the fund management company were to default, the depositary will take over management of the fund. There is no other form of compensation or guarantee scheme for investors in the fund.

## What are the costs?

The person advising you on or selling you the product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If the fund is part of another product, e.g. unit-linked insurance, there may be other costs for that product.

The tables show the amounts taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product, and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the recommended holding period, we have assumed the product performs as shown in the Moderate scenario.
- 100 000 SEK is invested.

	If you redeem after 1 year	If you redeem after 5 years
<b>Total costs</b>	1 720 SEK	14 610 SEK
<b>Annual cost impact*</b>	1.7 %	1.7 %

\*This illustrates how costs reduce your return each year over the holding period. It shows, for example, that if you exit at the recommended holding period, the average return per year is projected to be 15.0% before costs and 13.3% after costs. We may share part of the costs you pay us with the person selling you the product to cover the services they provide. You will be informed of the amount.

**Composition of costs (The amounts in SEK are based on an investment of 100,000 SEK)**

One-off costs upon entry or exit		If you redeem after 1 year
<b>Entry costs</b>	We do not charge a subscription fee, but the person selling the product to you may.	0 SEK
<b>Redemption Costs</b>	We do not charge a redemption fee for this product but the person selling the product to you may.	0 SEK
<b>Management fees and other administrative or operating costs</b>	1.5 % of the value of your investment per year. This is an estimate based on actual costs over the past year.	1520 SEK
<b>Transaction Costs</b>	0.2 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the product's underlying investments. The actual amount will vary depending on how much we buy and sell.	200 SEK
<b>Performance-related fees</b>	No performance related fee is charged for this product	Not applicable

## How long should I hold it and can I take money out early?

**Recommended Holding Period 5 years**

The fund has no minimum holding period requirement but, since it invests in equities, it is suitable for a medium to long investment horizon. You should be prepared to save in the fund for at least 5 years. You normally have the option to sell your fund on any and all business days without any additional fee.

## How can I complain?

If you have any complaints about the fund, you can contact the person who advised you or sold you the product.
