Spiltan Fonder AB is authorized in Sweden and regulated by the Swedish Supervisory Authority. The fact sheet was drawn up 2023-02-06.

What is this product?

Type UCITS fund

Term The fund has no maturity date. The fund company has the right to close the fund and redeem the units, see information in the prospectus.

Objectives The fund is a short-term fixed income fund, which means that the fund's average fixed interest term and average time to maturity may not exceed 1 year and 2 years, respectively. Investments are primarily made in interest-bearing securities issued by companies, such as corporate bonds and commercial papers. The fund's assets may be invested in interest-bearing transferable securities and money market instruments issued in Swedish kronor by the Swedish State, municipalities, county councils, credit institutions, and companies. The fund's objective is to provide a positive annual return at a low risk. The fund may, in order to enhance the efficiency of its management, invest in derivative instruments. The fund may not use OTC derivatives. The fund does not normally pay any dividends.

Intended Investor This fund may be suitable for those who plan to hold their investment for at least 1 year and who understand that the money invested in the fund may increase or decrease in value and that there is no guarantee that you will get back all the capital invested. To invest in the fund, you do not need to have any particular prior knowledge or experience of funds or financial markets.

Depository Depository: Swedbank AB (publ). The annual reports, semi-annual reports, prospectus, the latest prices of units, and other practical information may be obtained free of charge in Swedish, from www.spiltanfonder.se.

What are the risks and what could I get in return?

The risk indicator assumes that you keep the product for 1 year.

The summary risk indicator provides an indication of the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets. We have classified this product as 2 out of 7, which is a low risk class. An example explanation: This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the fund management company's capacity to pay you.

This product does not include any protection from future market performance. You could, therefore, lose all or part of your investment.

The actual risk can vary substantially if you exit the investment in advance and may result in you receiving smaller returns. You may not be able/permitted to exit the investment in advance. You may incur substantial extra costs for an early exit.

A liquidity risk, i.e. the risk of difficulty in valuing the security or of trading in the security without either significantly lowering its price or incurring substantial costs, may be higher in corporate bond funds than in equities funds. The corporate bond market has a lower level of transparency and liquidity than the equities market.

Counterparty risk arises if a counterparty does not fulfill its obligations to the fund, for example by not paying a set amount or not delivering securities as agreed.

Operational risk is the risk of loss due to, for example, system failure, errors caused by the human factor or by external events.

Performance Scenarios

Recommended Holding Period (years) Investment example		1 year 100 000
		If you redeem after 1 year
Scenarios		
Minimum	There is no guaranteed minimum return. You may lose all or part of your investment.	
Stress	What you can get back after deducting costs Average return per year	90 600 SEK -9.4 %
Unfavourable	What you can get back after deducting costs Average return per year	97 700 SEK -2.3 %
Moderate	What you can get back after deducting costs Average return per year	101 800 SEK 1.8 %
Favourable	What you can get back after deducting costs Average return per year	107 000 SEK 7.0 %

Your returns from this product depend on future market results. Market developments in the future are uncertain and cannot be accurately predicted. The figures shown include all the costs of the product itself, but may not include all of the costs you pay to your advisor or distributor/and the costs of your advisor or distributor. The figures do not consider your personal tax situation, which may also affect how much you get back. The unfavourable, moderate, and favourable scenarios show the worst, average, and best performance for the product over the last 10 years. The scenarios shown are based on previous results and certain assumptions. Markets could develop very differently in the future. The stress scenario shows what you could get back during extreme market conditions. Performance scenarios are shown for 1 year and the recommended holding period. These types of scenarios occurred for an investment between 2012-2022.

What happens if Spiltan Fonder AB is unable to pay out?

The fund's assets may not, by law, be held with the fund management company. The law requires, instead, that every fund has a separate company, a depository, that holds the fund's assets. If the fund management company were to default, the depository will take over management of the fund. There is no other form of compensation or guarantee scheme for investors in the fund.

What are the costs?

The person advising you on or selling you the product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If the fund is part of another product, e.g. unit-linked insurance, there may be other costs for that product.

What are the costs?

The tables show the amounts taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product, and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the recommended holding period/ other holding periods, we have assumed the product performs as shown in the Moderate scenario.
- 100,000 SEK is invested.

	If you redeem after 1 year (Recommended Holding Period)
Total costs	510 SEK
Annual cost impact*	0.5 %

*This illustrates how costs reduce your return each year over the holding period. It shows, for example, that if you exit at the recommended holding period, the average return per year is projected to be 2.3 % before costs and 1.8 % after costs. We may share part of the costs you pay us with the person selling you the product to cover the services they provide. You will be informed of the amount.

Composition of costs (The amounts in SEK are based on an investment of 100,000 SEK)

One-off costs upon entry or exit		If you redeem after 1 year
Entry costs	We do not charge a subscription fee, but the person selling the product to you may.	0 SEK
Redemption costs	We do not charge a redemption fee for this product but the person selling the product to you may.	0 SEK
Ongoing costs		
Management fees and other administrative or operating costs	0.1 % of the value of your investment per year. This is an estimate based on actual costs over the past year.	100 SEK
Transaction costs	0.4% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the product's underlying investments. The actual amount will vary depending on how much we buy and sell.	410 SEK
Incidental costs taken under specific conditions		
Performance-related fees	No performance related fee is charged for this product	Not applicable

How long should I hold it and can I take money out early?

Recommended Holding Period (years) 1 year

The fund has no minimum holding period requirement but, because it invests in interest-bearing, transferable securities and money market instruments, it is suitable for a short to medium-term investment horizon. You should be prepared to save in the fund for at least 1 year. You normally have the option to sell your fund on any and all business days without any additional fee.

How can I complain?

If you have any complaints about the fund, you can contact the person who advised you or sold you the product. You can also contact Spiltan Fonder AB (www.spiltanfonder.se) or send an email to fonder@spiltanfonder.se or send a letter to Spiltan Fonder AB, Riddargatan 17, SE-114 57 Stockholm, Sweden.
