The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment between March 2019 and March 2020.

Moderate scenario: This type of scenario occurred for an investment between November 2019 and November 2020.

Favourable scenario: This type of scenario occurred for an investment between September 2023 and September 2024.

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if Spiltan Fonder AB is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary Swedbank AB (publ). Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If the fund is part of another product, e.g. unit-linked insurance, there may be other costs for that product.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- You would get back the amount that you invested (0% annual return)
- 100,000 SEK is invested

| If you exit after 1 year |                |
|--------------------------|----------------|
| <b>Total costs</b>       | 100 SEK        |
| Annual cost impact (*)   | 0.1% each year |

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.2% before costs and 2.1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

### Composition of costs (amounts in SEK are based on an investment of 100,000 SEK)
